Chief Jason Mumbach
Pat Friar, Chairman

1/29 Three Fire District Meeting Agenda

- JOINT PURCHASING
 - We will use PPE as a test case for future collaboration.
 - This will start in the new budget cycle
 - All 3 districts moving towards Fire-Dex Gear
 - Each District will have its spec, but buy together
- TOWN WIDE FLEET MECHANIC
 - We have the largest fleet in Region 1 without a dedicated mechanic.
 - 9 Engines, 3 Rescues, 3 Ladders, 2 Mini Pumpers, 11 Command Cars, pickups, etc.
 - Can service small equipment, saws, generators, etc.
 - Can perform ladder testing
 - Reduce downtime
- HIGHWAY “CRASH” TRUCK
 - Joint Venture between all three districts
 - 1 or 2 vehicles to be operated by all three districts
 - Will respond to all Limited Access highway calls townwide
 - Minimize the danger of losing apparatus
 - Greenwich, Norwalk, and other FDs already have these in motion
 - CT State DOT highly recommends this equipment instead of Fire Apparatus
 - 125k – 135k per vehicle readily available vs 1.4 million and 4 years
 - Working on a grant
- MISC ITEMS
 - Overall low staffing townwide. What can we do and how can we help?
 - Multi-department access for firefighters in good standing in the “home dept”. Meaning if you are near a station that isn’t yours or hanging out at a sister department, you should be able to jump on their truck to staff it no matter who is dispatched.
 - One townwide insurance policy which each district pays for their portion. This would assist with the comment above.
 - What is the status of TFSS? Who covers them if they are to get injured on our fire scene?
 - Facility Maintenance Managers
 - Townwide wet down for new trucks at NFD, TCFD, LHFD? Any interest?
- Discussion / Topics Off the Floor
